

# IC3 Fast Track Assessment

**Teachers, do you know where your students are... with their digital literacy skills?**

Based on the globally recognized IC3 Digital Literacy Certification, the 50-question IC3 Fast Track

assessment can help determine an individual's ability to perform in any environment where the use of technology is required. IC3 Fast Track is the best way to ensure that your students or employees are up to speed!

For teachers, this test works as a great pretest or placement exam. It can help to determine which pathway to place a student based on his or her current knowledge.

In just one test, the Fast Track assessment summarizes all of the objective domains from the three different IC3 exams:

- COMPUTING FUNDAMENTALS
- LIVING ONLINE
- KEY APPLICATIONS
- ONE SINGLE 50-MINUTE EXAM
- ASSESSES BASELINE KNOWLEDGE
- CAN BE REPEATED AS NEEDED

## Learning Materials & Practice Tests

Preparing your students for certification is a big responsibility. Let Certiport make your job easier and more effective with industry-leading courseware materials and practice tests.

LearnKey video courseware enhances the learning experience and increases certification exam success.

CCI Learning Solutions offers complete solutions for teaching and validating essential skills needed in today's workplace.

Pearson programs help learners prepare for greater education and employment opportunities.

Teknimedia provides high-quality interactive online/offline training and assessment software.

Performance-based assessment and test preparation tools to help individuals achieve IT certification credentials.

# The Future Begins with IC3

From cell phones and personal devices to the more robust systems that power modern vehicles and large corporations, technology is integrated into nearly every aspect of our lives. Whether we are simply updating a social media status or managing complex IT infrastructures, technology plays a critical role in our happiness and success. The IC3 Digital Literacy Certification is truly comprehensive and very diverse, including resources specifically designed for a variety of ages and occupations:

THE FUTURE BEGINS WITH IC3

GO FURTHER

# IC3 Digital Literacy Certification

The IC3 Digital Literacy Certification is a credential designed to remain relevant in an ever-evolving world of technology.

IC3 Global Standard 5 (GS5) is a comprehensive solution for succeeding in any environment requiring computers, devices, or the Internet.

These are concepts and skills that apply to every school or career pathway, and are ideal for students or jobseekers looking to validate their digital skills.

IC3 Digital Literacy Certification is comprised of three individual exams:

Foundational understanding of computer hardware, software, operating systems, peripherals, and troubleshooting

Skills to use the Internet or work in a networked environment and maximize communication, education, collaboration, and social interactions in a safe and ethical way.

Familiarity with the most common features of spreadsheets, word processing, and presentation applications and "app culture".

7 **EMPOWER** your students to keep going with further certifications

## IC3 Spark: The First Step

The need for basic digital literacy skills is becoming more relevant to an increasingly more technology-driven world.

IC3 Spark delivers the viable solution for helping learners adopt critical skills for their

success in a world where technology is constantly changing.

As the first step in digital literacy, IC3 Spark is the solution for helping students create a brighter future.

IC3 Spark certification addresses the same foundational concepts as its precursor – the IC3 Digital Literacy Certification, but is created for students who may be new to computers and the Internet, or who lack a solid foundation in digital concepts.

“ Rather than assuming that youth have innate technical skills, parents, educators, and policymakers must collectively work to support those who come from different backgrounds and have different experiences.
